- Delivering training and support on world-class PaaS solutions e.g. cloud foundry and Kubernetes.

### Hermes, UK Leeds — Senior Engineer & DevOps

Dec 2016 - Apr 2018

- Develop architecture & development proposals
- Lead a development team 2 engineers, 1 QA
- Design, build and maintain production hybrid systems and platforms.

## Location

Remote - UK  
Remote - EU (Slovakia)

## Areas of Interest

Digital transformation.  
Cloud technologies.  
Platforms.  
People Leadership.  
DevSecOps thinking.  
Automation.  
Kubernetes.  
CI/CD. Software Engineering.  
Microservices.  
TDD and XP.  
Mentoring.  
Decision Making.  
Pair Programming.

## PROGRAMMING LANGUAGES

*Java, Golang, Python, NodeJs, JavaScript, C#*

## LANGUAGES

*English, Slovak, Polish, Belarusian*

## CERTIFICATIONS

*AWS, Java, GCP, Agile*

## **MHR, UK Nottingham — Senior Software Engineer**

Apr 2015 - Dec 2016

- Driving technical change and adoption of cloud-based solutions
- Automation of key areas within a product development lifecycle.
- Introducing Agile practices and accompanying transformation process.

## **Wonderment Apps, USA Remote**

### **Sr. Lead DevOps contractor**

2014 - 2015

- Driving the Cloud First, Cloud Native agenda across multiple client engagements
